25X1

25X1 5. [redacted] George Murphy, Joint Committee on
Atomic Energy staff, called to say that the Committee had experienced
25X1 some difficulty in obtaining information from the Atomic Energy Commission
on the [redacted] case and that in his most recent conversation with
Dwight Ish, of AEC, Ish advised that he had discussed this matter with
the Director who had reversed his previous position, i.e., that the Com-
mittee contact the AEC and the FBI on these "spy cases" and had agreed
the Agency would brief the Committee staff on the [redacted] case. 25X1
Murphy was definitely provoked with the Commission and asked that in
view of this information if the Agency would provide this information tomorrow
morning. I told him I would follow up on this and be in touch.

25X1 6. [redacted] Left with Miss Krol, in the office of
Representative Peter Frelinghuysen, a supply of maps indicating the
location of the Agency headquarters building and assisted her in preparing
a notice to the SOS Club members with respect to the breakfast here with
the Director on 31 July.

25X1 7. [redacted] Talked with Mr. Kemp, in the office of
Representative Walter Norblad, concerning the Congressman's letter on
behalf of a young man who is presently in France who expected to be
travelling to the Soviet Union and several bloc countries and asked whether
this would effect the possibilities of his future employment with Naval
Intelligence or CIA. I advised Mr. Kemp that travel in these areas would
not automatically bar him from employment in the Agency, this was a
matter which would depend upon his qualifications, his background and
related factors. I suggested that this individual contact the State Depart-
ment or the Embassy in Paris in connection with his proposed travel. I
emphasized that I was restricting myself to the question of future employ-
ment possibilities with this Agency and that he might wish to talk with the
FBI. Kemp seemed to think this was a good idea and thanked us for our
assistance.
